Dear Valued Customer,

In order to comply with the State of California's Proposition 65, Pindler advises you that some of our product may contain chemicals known to the State of California to cause cancer, birth defects or other reproductive harm.

WHAT IS CALIFORNIA PROPOSITION 65?

Proposition 65 is a California law that requires the State to keep a list of chemicals that it has identified may cause cancer or reproductive toxicity.

If a product contains a chemical on the list, the State of California requires businesses doing business in the State of California to provide a 'reasonable warning' before potentially exposing Californians to the chemicals in the product. California requires all 'persons in the course of doing business' whose products are sold in California to comply with Proposition 65, in addition to federal laws for product safety.

WHAT IS THE CALIFORNIA PROPOSITION 65 WARNING NOTICE?

Mandated by Proposition 65, the following warning label must appear on products sold in California if they contain materials on the Proposition 65 list of chemicals.

WARNING: This product contains a chemical known to the State of California to cause cancer, birth defects or other reproductive harm.

WHAT CHEMICAL(S) IN PINDLER'S PRODUCTS DOES THIS WARNING APPLY TO?
